

I urge you to support assistance to Vietnamese, U.S. and Vietnamese American Agent Orange Victims

Dear Member of Congress:

I am very concerned about the serious health and environmental dangers to the lives of U.S. veterans, their family members and three generations of Vietnamese people who were exposed to Agent Orange/dioxin sprayed over southern Vietnam during the war. Vietnamese Agent Orange victims, as well as impacted Vietnamese Americans, have yet to receive meaningful help from the U.S. government.

The spraying of Agent Orange results in:

- More than 3 million Vietnamese have been killed, suffer from terminal illnesses or are disabled.
- Death, cancers, respiratory problems, immune deficiencies, reproductive illnesses and severe birth defects impacting 2nd and 3rd generations of children of those sprayed.
- Poisoning of the environment and ecosystems in many parts of Vietnam.

As your constituent, I urge you to take action on this issue by supporting congressional efforts to heal the wounds of war and meet our moral responsibility by *funding significant assistance to Vietnamese Agent Orange victims, clean up the lands contaminated by Agent Orange dioxin in Vietnam, provide additional assistance for veterans and especially their children affected by Agent Orange and address the needs of affected Vietnamese-Americans.*

Sincerely,
